Ajikya Sharma

Full Stack Developer

Full Stack Developer passionate about building responsive, user-centric web applications using the **MERN stack** (MongoDB, Express.js, React.js, Node.js). I bring a solid foundation in front-end and back-end development with strong problem-solving skills and attention to detail. Eager to contribute my technical expertise and creativity to a dynamic development team.

EDUCATION

Bachelor of Technology

Mahatma Jyotiba Phule Rohilkhand University, Bareilly

2021 - Present   *8.63 GPA*

Courses
- Computer Science & Information Technology

Class XII

Jai Narayan Saraswati Vidya Mandir Inter College, Bareilly

2021   *89.8%*

Class X

Jai Narayan Saraswati Vidya Mandir Inter College, Bareilly

2019   *92.33%*

WORK EXPERIENCE

Full Stack Intern

Luink.ai

06/2024 - Present

Achievements/Tasks
- Developed responsive UIs and dynamic components using **React.js** , integrating with **Node.js** APIs for seamless functionality.
- Designed and implemented server-side logic and APIs with **Node.js** , enhancing app performance and user engagement.
- Utilized **Firebase** for real-time database management, authentication, and analytics.
- Optimized complex features like dynamic sidebars, post-sharing, and video functionalities for improved user experience.

## CERTIFICATES

MERN Stack Development
E-School, Bareilly

Java Development
E-School, Bareilly

DSA & C++
E-School, Bareilly

SKILLS

HTML   CSS   BootStrap   JavaScript   React Js   Tailwind CSS   Material UI   Node Js   Express   Rest API   JAVA   OOPS   DSA   Python   C++   MySQL   MongoDB

PROJECTS

Luink.ai (Mobile Application) (07/2024 - Present)
- **https://play.google.com/store/apps/details?id=com.advisiorapp**
- Developed and maintained **RESTful APIs** in **Node.js** to power core features and functionalities of the mobile app.
- Designed efficient server-side logic to handle data interactions, ensuring seamless communication between the app and **Firebase** database.
- Implemented **authentication and user management** using Firebase Authentication to secure user data.

Adviserxiis (LIVE PROJECT) (06/2024 - Present)
- **https://www.adviserxiis.com/**
- Developed a content-sharing platform using React.js, incorporating a secure payment gateway and video call functionality for real-time communication.
- Utilized Firebase to manage data efficiently, enabling creators to offer and monetize their services directly on the platform.
- Enhanced user experience by providing seamless transaction capabilities and dynamic content updates, supporting creators and users in a collaborative environment.

AJAPA (LIVE PROJECT) (01/2024 - 05/2024)
- **http://3.111.152.45:3000/sign-in**
- I've collaborated on a user and event management real-time, live web platform for an ashram, employing React for the frontend and Spring Boot for the backend.
- Developed advanced API integration skills in React.js, optimizing data retrieval.
- Implemented effective state management techniques, including user authorization, for secure user experience, and mastered form validation using Formik & Yup for enhanced data integrity.

PixPulse (11/2023 - 12/2023)
- **https://pixpulse.netlify.app/**
- Developed **PixPulse** , an Instagram replica using the **MERN stack** , demonstrating expertise in full-stack development with robust backend functionalities and seamless frontend interactions.
- Gained advanced skills in **JWT authentication** and **API integration** to enhance user experience and ensure secure, efficient access.

ACHIEVEMENTS

250+ Leetcode Questions
*Enhancing problem-solving skills through consistent practice on **LeetCode** .*
