Jai Narayan Saraswati Vidya Mandir Inter College, Bareilly

2019   *92.33%*

PERSONAL PROJECTS

AJAPA
- **http://34.203.29.229:3000/sign-in**
- I've collaborated on a user and event management real-time, live web platform for an ashram, employing React for the frontend and Spring Boot for the backend.
- Developed advanced API integration skills in React.js, optimizing data retrieval.
- Implemented effective state management techniques, including user authorization, for a secure user experience, and mastered form validation using Formik & Yup for enhanced data integrity

PixPulse
- **https://pixpulse.netlify.app/**
- Created PixPulse, a comprehensive Instagram replica, using the MERN stack, showcasing expertise in full-stack development.
- Acquired advanced skills in JWT authentication and API integration while building PixPulse.
- Implemented robust backend functionalities and seamless frontend interactions, ensuring a user-friendly experience.

YouTube-Clone
- **https://yt-watchnet.netlify.app/**
- Developed a responsive user interface mirroring YouTube's design using React, enhancing user experience and engagement.
- Integrated YouTube's API to fetch and display real-time video content, showcasing proficiency in API integration and data management.

FriendsBook
- **https://github.com/ajikyasharma/FriendsBook**
- Developed Friend Book, a social networking web application, using Java with JSP servlet for the backend and MySQL for database connectivity.
- Designed the frontend of Friend Book using HTML, CSS, and JavaScript to create an intuitive and engaging user interface.
